Removal of Parking Meters in Downtown Stoney Creek and Downtown Waterdown

Whereas the parking meters in Downtown Stoney Creek and Downtown Waterdown were installed primarily to generate revenue, and

Whereas the parking meters in Downtown Stoney Creek and Downtown Waterdown have financially underperformed since being installed on July 1, 2010, and

Whereas the actual annual revenues are only approximately \$53,000 combined for the parking meters in Downtown Stoney Creek and Downtown Waterdown;

Therefore be it resolved:

- (a) That the on-street parking meters in Downtown Stoney Creek and Downtown Waterdown be removed and that staff be directed to prepare a by-law amendment to restore the previous on-street parking regulations; and
- (b) That the revenue shortfall in the operating budget be dealt with during the 2012 budget process.
